Investment Objective, Policy and Restrictions

Investment Objective	<p>The investment objective of the Sub-Fund is to achieve long-term capital appreciation through investment, primarily, in a diversified portfolio of equity securities.</p> <p>There is no guarantee that the investment objective of the Sub-Fund will be achieved and investment results may vary substantially over time.</p>
Investment Policy	The Sub-Fund will invest mainly in listed equity securities but can invest in other types of securities such as preferred stock, rights, warrants, contingent convertible bonds and securities convertible into common equity shares,. The Sub-Fund may also hold deposits and cash, and selected Collective Investment Schemes (CISs) that are UCITS CIS

and/or UCITS eligible CISs and Exchange Trade Funds as provided in the Prospectus, insofar as these would contribute to the Sub-Fund achieving its overall investment objective..

When the Sub-Fund invests in the units of another UCITS and/or other CISs, the maximum level of management fees that may be charged to the Sub-Fund, will not exceed 2.5% per annum of the net assets of such schemes.

The Sub-Fund can invest without limit in any country, including countries described as developing or emerging markets. However, the Sub-Fund will emphasize its investments in developed markets such as European Union Members and Group of 10 Countries. The latter Group currently consists of Belgium, Canada, France, Italy, Japan, The Netherlands, Sweden, The United Kingdom and The United States. The Sub-Fund does not limit its investments to companies in a particular capitalisation range, but primarily invests in mid-cap and large-cap companies.

The Investment Manager does not target a fixed allocation with regard to any particular industry or geographic region and investments might include single company equity shares, exchange traded funds and collective investment schemes.

The Sub-fund may purchase American Depositary Shares ("ADS") as part of American Depositary Receipt ("ADR") issuances and Global Depositary Receipts ("GDR") or their equivalent.

An ADS is a U.S. dollar-denominated equity share of a foreign-based company available for purchase on an American stock exchange. ADS are issued by depository banks in the U.S. under agreement with the issuing foreign company.

An ADR is a negotiable security that represents securities of a company that trades in the U.S. financial markets. Shares of non-U.S. companies trade on U.S. stock exchanges through ADRs, which are denominated and pay dividends in U.S. dollars and may be traded like regular equity shares.

A GDR is a general name for a depository receipt where a certificate issued by a depository bank, which purchases shares of foreign companies, creates a security on a local exchange backed by those shares. They are the global equivalent of the ADR on which they are based. GDRs represent ownership of an underlying number of equity shares of a foreign company and are commonly used to invest in companies from developing or emerging markets by investors in developed markets.

The Sub-fund may invest in bank deposits, short dated government paper, certificates of deposits and commercial paper. The Sub-Fund may, in response to adverse market, economic, political or other conditions, take a temporary defensive position. This means the Sub-Fund may invest a significant portion of its assets in bank deposits, government issued bills and notes, certificates of deposits and commercial paper. When the Sub-fund is not taking a temporary defensive position, it will hold some cash, cash equivalents and money market instruments for ancillary purposes so that it can pay its expenses, satisfy redemption requests or take advantage of investment opportunities. The Sub-Fund may also increase its cash position if the Investment Manager cannot find companies that meet their investment requirements. When the Sub-Fund holds a significant portion of assets in cash and cash reserves, it may not meet its investment objective and

the Sub-Fund's performance may be negatively affected as a result.

Currency Exposures

The Sub-Fund will always maintain at least 70% of total net assets in the Sub-Fund's base currency.

Financial Derivative Instruments

The Sub-Fund may invest in financial derivative instruments (FDIs) for the purposes of Efficient Portfolio Management (EPM).

Permitted EPM transactions (excluding stock lending transactions) are transactions in FDIs (as described in the Prospectus) dealt in or traded on an Approved Regulated Market or off-exchange (including futures, options, swaps or forward currency transactions). For example, the Sub-Fund may use forward currency transactions to hedge foreign exchange risk. Any forward transactions must be with an Approved Counterparty and in accordance with the requirements of the MFSA. There is no limit on the amount of the assets which may be used for EPM.

The purpose of an EPM transaction for the Sub-Fund must be to achieve one of the following in respect of the Sub-Fund:

- (i) Reduction of risk
- (ii) Reduction of cost
- (iii) The generation of additional capital or income for the Sub-Fund with no, or an acceptably low level of, risk
- (iv) The global exposure may not exceed the Net Asset Value of the Sub-Fund. Assets and cash can be used only once for cover.
- (v) They cannot result in a change to the Sub-Fund's investment objective or add substantial supplementary risks in comparison to the risks relative to the Sub-Fund identified in the Prospectus and this Supplement.
- (vi) The use of FDIs for the purpose of EPM is not otherwise expected to raise the risk profile of the Sub-Fund or result in higher volatility.

Investment and Borrowing Restrictions

In pursuing its Investment Objective and Investment Policy, the Sub-Fund will be subject to the Investment, Borrowing and Leverage Restrictions set out in the Section of the Prospectus entitled "Investment Objectives, Policies and Restrictions".

The expected maximum level of borrowing allowed by the Sub-Fund is of 10% provided that such borrowing is on a temporary basis in line with SLC 5.47 of the Rules.

The Offering

Share Offer

This Offering Supplement is supplemental to, and must be read in conjunction with, the Prospectus issued by the Company.

The Offering Supplement constitutes an offer of Investor Shares in the Sub-Fund which is comprised of two (2) classes of Investor Shares.

The offering of the Investor Shares at the Initial Offering Price commenced on the 28 September 2020 and will end on the Closing Date.

During the Offering Period which will commence on the first Business Day after the Closing Date, the offer is for Investor Shares at the Subscription Price applicable on the relevant Subscription Day. The Offering Period shall remain open until such time as the Directors determine otherwise.

Purchase, Transfer and Exchange of Shares

Subscriptions may be made in the form of a lump sum investment or via the monthly investment plan.

Lump Sum Investments

Investor Shares can be purchased at the prevailing Subscription Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Subscription Application prior to the cut off time for receipt of applications for the relevant Share Class.

If the Subscription Application is not received as required, the Subscription Application may be rejected or held over until the next Subscription Day at the discretion of the Company. In the event that an application is rejected, any application monies received will be returned without interest by telegraphic transfer to the remitting bank at the discretion of the Company at the risk and expense of the Subscriber. Subject to the satisfaction of the requirements set out above, Investor Shares shall be issued to successful Subscribers on the relevant Subscription Day.

No application will be capable of withdrawal after acceptance by the Administrator, unless such withdrawal is approved by the Directors acting in their absolute discretion. In such circumstances, the Company may charge the Subscriber for any expense incurred by the Company and for any loss to the Sub-Fund arising out of such withdrawal.

The Administrator will generally issue written confirmation of ownership to a Shareholder within seven (7) Business Days after the applicable Subscription Day.

Payment should be effected as described in the Payment Forms which are available from the Investment Manager and/ or the Administrator. At the Company's discretion, payments may be accepted other than in cash. All payments in cash for Investor Shares must be made in the base currency of that class of Investor Shares and be received in Cleared Funds in any event before the Settlement Date. Any applicable bank charges will be borne by the Subscriber.

If payment in full in Cleared Funds in respect of an application has not been received by the relevant Settlement Date or in the event of non-clearance, any allotment or issue of Shares made in respect of such application shall be cancelled and the Directors may charge the Subscriber for any expense incurred by the Company and for any loss to the Sub-Fund arising out of such non-receipt or non-clearance. Monies returned will be at the risk and expense of the Subscriber.

Full details of the application and subscription process appear in the Section of the Prospectus entitled "**Purchase, Exchange and Transfer of Shares**".

A Subscription Application and other related documentation will be provided upon request by the Administrator, the Investment Manager or by an Authorised Distributor.

Monthly Investment Plan

A monthly investment plan can be established in respect of the Class A Accumulator Shares by completing the relevant section of the Subscription Application and is made through regular monthly subscriptions. The Investor should arrange for a standing order from his bank account in favour of the Company. The subscription amount should be received by the Company by not later than the applicable Settlement Date, as set out under 'Key Features' – 'Deadlines' above. All payments in cash for Investor Shares must be made in the base currency of that class of Investor Shares and be received in Cleared Funds in any event before the Settlement Date. Any applicable bank charges will be borne by the Subscriber. Investor Shares will be issued on the relevant Monthly Subscription Day.

If payment in full in Cleared Funds in respect of an application has not been received by the relevant Settlement Date or in the event of non-clearance, any allotment or issue of Shares made in respect of such application shall be cancelled and the Directors may charge the Subscriber for any expense incurred by the Company and for any loss to the Sub-Fund arising out of such non-receipt or non-clearance. Monies returned will be at the risk and expense of the Subscriber.

In the case of subscriptions via the monthly investment plan, written confirmation of ownership will not be issued but investors will be sent every six months, as at 30 June and 31 December, a statement giving full details of the transactions made during the previous six-month period together with a valuation of such holdings as at these dates.

Redemption of Shares

Investors are directed to the Prospectus where the procedures relating to the Redemption of Investor Shares and the conditions applicable thereto are outlined.

Investor Shares can be redeemed at the prevailing Redemption Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Redemption Notice before the Redemption Notice Deadline. Redemption requests received after the cut off time for receipt of redemption requests will be processed on the following Redemption Day.

In terms of the Memorandum and Articles, redemption requests and/or exchange requests are, once made, irrevocable. A Redemption Notice if accepted by the Company will be effective as at the applicable Redemption Day. Investor Shares shall be cancelled on the relevant Redemption Day and redemption requests will generally be settled within fourteen (14) Business Days from the relevant Redemption Day.

Full details of the redemption process appear in the Section of the Prospectus entitled "**Redemption of Shares**".

A Redemption Notice and other related documentation will be provided upon request by the Administrator, the Investment Manager or by an Authorised Distributor.

Deferral of Redemption

The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 10% of the outstanding Investor Shares in the Sub-Fund on that day (in each case before processing request for the issue of the Investor Shares or requests for redemptions of such Investor Shares for such Redemption Day). In such circumstances the Company or its authorised agent may scale down pro rata the number of Investor Shares to be redeemed in response to each request for redemption to the extent necessary to ensure that the foregoing limit is not exceeded, and shall carry forward the balance for redemption as at the next Redemption Day and so on to each succeeding Redemption Day until each request has been complied with in full. Requests for redemption carried forward from an earlier Redemption Day shall have priority over later requests.

Risk Factors

Investors are directed to the Prospectus where the risk factors applicable to investment in shares of the Company, including in Investor Shares, are explained. In addition to the risk factors set out in the Prospectus, investors should note the additional risk factors outlined below:

Equity Risk

Investment in equities run the risk that the market prices of investments will decline. The market prices of equities may decline for reasons that directly relate to the issuing company, such as poor management performance or reduced demand for its goods or services. They also may decline due to factors that affect a particular industry, such as a decline in demand, labour or raw material shortages, or increased production costs. In addition, market prices may decline as a result of general market conditions not specifically related to a company or industry, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates, or adverse investor sentiment generally. Equities generally have significant price volatility and the market prices of equities can decline in a rapid or unpredictable manner.

Equity-Related Securities

The Sub-Fund may invest in equity-related securities, these being ADRs/GDRs. These are generally traded on an exchange and are thus subject to general market conditions, such as liquidity and trading appetite in respect of the said instruments. There is also the risk that investments in these instruments may be adversely affected by changes in the inflationary, political and exchange rate conditions of the underlying assets.

Developing and Emerging Market Risk

The Sub-Fund may be investing in geographical areas considered as developing and emerging markets. The risks involved in investments in these markets are likely to exceed the risks of investment in more mature markets. This higher degree of risk may be associated with: (i) the adverse effect on investment sentiment that could result from military conflict, civil commotion, nationalisation of foreign-held assets or other unfavourable political developments; (ii) the difficulty of obtaining an accurate view of a company's prospects where accounting standards are such that those prospects are not fairly reflected by published accounts; (iii) the difficulty of selling, or selling at a fair price, securities in which an efficient market is not made; (iv) potential difficulties in obtaining prompt settlement; (v) the possibility that a local currency might cease to be readily convertible into any major freely negotiable trading currency; and (vi) the risks associated with registering, transferring and safekeeping securities in markets which do not have developed settlement and custody systems. Investors should also be aware that the level of regulation/regulatory standards in the markets that the Sub-Fund may target for its investments might vary from one jurisdiction to another. Such level of regulation/regulatory standards can be significantly lower than those prevailing in developed markets. Consequently, the level of protection afforded to investors may be limited in certain countries and may thus not be of the level usually associated with developed markets.

Eurozone Risks

A number of countries in the EU have experienced severe economic and financial difficulties. Many non-governmental issuers, and even certain governments, have defaulted on, or been forced to restructure, their debts; many other issuers have faced difficulties obtaining credit or refinancing existing obligations; financial institutions have in many cases required government or central bank support, have needed to raise capital, and/or have been impaired in their ability to extend credit; and financial markets in the EU and elsewhere have experienced extreme volatility and declines in asset values and liquidity. These difficulties may continue, worsen or spread within and outside the EU.

Certain countries in the EU have had to accept assistance from supra-governmental agencies such as the International Monetary Fund (the "IMF") and the recently created European Financial Service Facility (the "EFSF"). The European Central Bank (the "ECB") has also been intervening to purchase Eurozone debt in an attempt to stabilise markets and reduce borrowing costs. Responses to the financial problems by European governments, central banks and others including austerity measures and reforms, may not work, may result in social unrest and may limit future growth and economic recovery or have other unintended consequences. Whether or not the Sub-Fund invests in securities of issuers located in the EU or with significant exposure to EU issuers or countries, these events could negatively affect the value and liquidity of the Sub-Fund's investments and consequently the value of the Shares.

Smaller Companies

The companies in which the Sub-Fund may invest may include small companies, and some of the listed companies in which the Sub-Fund invests may have low market capitalisations. Investment in the securities of smaller companies can involve greater risks than is customarily associated with investment in larger, more established companies. In particular, smaller companies often have limited product lines, markets or financial resources and may be dependent for their management on a small number of key individuals.

IT IS RECOMMENDED THAT PROSPECTIVE INVESTORS CONSULT THEIR OWN ADVISORS ON LEGAL, TAX AND FINANCIAL ISSUES THAT ARE RELEVANT FOR THEIR SPECIFIC SITUATION, AS THE INFORMATION HEREIN SHOULD BE REGARDED AS GENERAL INFORMATION. INVESTMENT IN THE SUB-FUND SHOULD BE REGARDED AS A LONG TERM INVESTMENT. THERE CAN BE NO GUARANTEE THAT THE INVESTMENT OBJECTIVE OF THE SUB-FUND SET OUT HEREIN WILL BE ACHIEVED.

THERE CAN BE NO GUARANTEE THAT THE INVESTMENT OBJECTIVE OF THE SUB-FUND SET OUT HEREIN WILL BE ACHIEVED.

POTENTIAL INVESTORS ARE EXPECTED TO BE AWARE OF THE RISKS OF INVESTING IN THE SUB-FUND AND ANY PERSON CONSIDERING AN INVESTMENT IN THE SUB-FUND MUST HAVE THE FINANCIAL SOPHISTICATION AND EXPERTISE TO EVALUATE ITS MERITS.

Pricing

The calculation of the NAV of the Sub-Fund and of the NAV per Share shall be effected by the Administrator at each Valuation Point on every Subscription Day and Redemption Day in such manner as is stated in the Prospectus under the section entitled "**Net Asset Value Calculation**". Shares in other Sub-Funds of the Company

The Company is constituted as a multi-fund investment company with variable share capital. As of the date of this Offering Supplement, the Company has made an offering of Investor Shares in other sub-funds.

Dividend Policy

General

It is intended that the Company will distribute dividends in respect of the Class B EUR Distributor Shares in such amounts and with such frequency as may be determined by the Directors in accordance with the Prospectus and this Offering Supplement. It is envisaged, but no guarantee is given, that most or all of the net income of the Sub-Fund will be declared on a six monthly basis (each being an "Interim Period") ending as follows: 31st March and 30th September (each a "Dividend Cut-Off Date") and this in the form of interim dividends. At each annual general meeting, a final dividend may, if recommended by the Directors and approved by the Shareholders, also be paid.

Only those Shareholders listed on the Company's register of members at close of business on the last Business Day immediately preceding the relevant Dividend Cut-Off Date shall be entitled to receive the respective dividend payments for the relevant Interim Period. Payments shall be effected in the Base Currency unless a different arrangement has been agreed to by the Custodian.

Payment of a dividend will be made in the name of the Shareholder or, in the case of joint holders in the name of the first-named joint holder. Payment to the first-named joint holder shall be as effective a discharge to the Company, the Investment Manager and the Custodian as if such first-named joint holder had been a sole holder. Without prejudice to the foregoing, joint holders may request that dividends be apportioned amongst the joint holders in which case, and if accepted by the Company, the holders shall bear all extra costs in that regard.

Payments of dividends can be made through either:

- i. the direct crediting of the Shareholder's bank account, or
- ii. the re-investment in further Class B EUR Distributor Shares

as indicated by the subscriber in the Subscription Agreement. Notwithstanding the foregoing, the Directors reserve the right to stipulate a threshold below which dividend payments will be automatically re-invested.

The Sub-Fund will pay the Custodian or any other paying agent a fee to cover the operation of distribution of dividends. Please refer to the Section entitled "Fees Payable by the Sub-Fund" above for further details.

Where the Shareholder has opted for direct crediting of dividends and the relative direct credit is rejected for any reason outside the Company's control, the Company shall: (a) re-invest the proceeds of the direct credit, less any bank charges if applicable, in further Class B EUR Distributor Shares and in the name of the Shareholder(s) on the next Subscription Day following the date that notice of the rejection was received; (b) be deemed to have been given notice from the Shareholder that any future dividends will be automatically re-invested, and the resulting Class B EUR Distributor Shares added to the Shareholder's holding in accordance with the Prospectus; and (c) send a statement to the Shareholder reflecting the re-investment of the aforesaid dividend proceeds. Nonetheless the Shareholder may, at any time inform the Company of alternative arrangements for the direct crediting of subsequent dividends.

Shareholders may also elect to have their dividends (less any withholding tax deductible upon payment thereof) reinvested in further Class B EUR Distributor Shares. Reinvestment of dividends shall be effected on the next Subscription Day following the day on which the relevant dividend will be payable to the Shareholder and shall be effected at the applicable Offering Price.

If a Shareholder wishes to alter his instructions regarding the payment or re-investment of dividends, he should provide the Company with written instructions at least seven (7) clear Business Days prior to the relevant Dividend Cut-Off Date. The Company, the Investment Manager and the Custodian shall not be responsible for any loss or delay in transmission and dividends or any amount payable to Shareholders shall not bear interest against the Company.

Any dividend payments which remain unclaimed after a period of twelve (12) years from the date of payment shall then be transferred to and become part of the Sub-Fund's assets and neither the payee, Shareholder nor their successor(s) in title shall have any right thereto other than as part of the NAV per Share.

Shareholders entitled to receive dividend payments will, on or after the payment date, be sent a Dividend Certificate which shall include details in respect of the income distributed including, if required by any applicable legislation, a statement of how much of the amount to which they are entitled represents any tax deducted in respect of that income.

All payments are subject to any pledge of the Class B EUR Distributor Shares and/or Class D EUR Distributor Shares and/or Class G GBP Distributor Shares duly constituted and notified to the Company as well as to any applicable fiscal laws and regulations — your attention is drawn to the section in the Prospectus entitled "Taxation" and to the part hereof entitled "Taxation".

All dividend payments shall be effected in accordance with the Licence Conditions or any other applicable MFSA requirements.

Allocation of Income

Pursuant to the Company's Memorandum and Articles, the income available for allocation in respect of the Class B EUR Distributor Shares shall be the sum recommended by the Directors which shall not be in excess of the income received or receivable by the Sub-Fund in respect of assets (whether in the form of dividends,

interest or otherwise) during the relevant period less appropriate expenses in accordance with the Act and the Licence Conditions, nor in excess of the amount available for distribution in accordance with applicable laws and regulations.

In terms of the Licence Conditions, the amount available for allocation is to be calculated by taking the aggregate of the income property received or receivable by the Sub-Fund in respect of the Interim Period or Accounting Period and:

- i. including therein any income amount received by the Custodian on the Class B EUR Distributor Shares created during the relevant period, including any resulting from the final valuation;
- ii. adding the Investment Manager's, or the Company's, best estimate of any relief from tax on expenses properly payable out of income of the Sub-Fund in respect of the relevant period;
- iii. deducting the aggregate of all the Investment Manager's, the Custodian's and the Administrator's remuneration in respect of the Sub-Fund properly paid or payable in respect of the relevant period;
- iv. deducting the aggregate of the payments out of income property paid or payable in respect of the relevant period;
- v. deducting such provision for taxation as the Investment Manager, or the Company, after consulting the Auditors considers appropriate;
- vi. deducting the aggregate of those parts of the Redemption Proceeds of Class B EUR Distributor Shares redeemed during the relevant period (including any redeemed by relation to the final valuation) as were attributable to the addition of income property to the calculation of the Redemption Price including any income equalisation amount paid by the Custodian on redemption;
- vii. deducting (or disregarding) and carrying forward of any potential income, if the Custodian and the Investment Manager, or the Company, agree that, because adequate information is normally not available about how that income accrues, it ought generally not to be accounted for on an accrued basis;
- viii. deducting (or disregarding) and carrying forward of any potential income, if the Custodian and the Investment Manager, or the Company, agree that that income is not likely to be received by the Custodian until twelve (12) months after the income allocation date, provided the Auditors are satisfied that the Custodian has made and intends to continue to make all proper efforts to obtain its receipt; and
- ix. adjusting for the re-allocation of the expenses from the "income account" to the "capital account". The Custodian, in consultation with the Investment Manager, or the Company, shall exercise reasonableness in effecting these re-allocations.

At the end of each relevant accounting period, the Custodian shall transfer the positive balance, if any, in the "income account" to an account to be known as the "distribution account". If however, the average payment to Shareholders of the Sub-Fund by way of income during the relevant accounting period would amount to less than fifteen Euro (EUR15) or their equivalent, the Custodian may, acting on the advice of the Investment Manager or the Company, (a) carry the balance in "income account" forward to the next relevant accounting period (and to regard it as received at the start of that period), or (b) credit the income to the "capital account" in which case it will be represented in the NAV per Share.

The Directors may decide to distribute all or part of the balance in the "distribution account" and shall either directly or through the Investment Manager instruct the Custodian accordingly. In that case the Custodian shall carry the remaining balance in the "distribution account" forward to the next relevant accounting period.

On or before the relevant income allocation date, the Custodian shall allocate the available income to the Shareholders rateably in accordance with the number of Class B EUR Distributor Shares held by them on the Dividend Cut-Off Date.

Income Allocation Dates

Any income which stands to be allocated to the income account in respect of an Interim Period shall be so allocated by not later than two (2) months after the end of each Interim Period as specified in this Prospectus for the purposes of dividend distributions, and in respect of the Accounting Period, the allocation shall be

made by not later than two (2) months after the end of the Accounting period.

Equalisation Account

The Offering Price of any Class B EUR Distributor Shares generally contains an element representing the accrued income earned by those Class B EUR Distributor Shares since the start of the relevant Interim Period. This means that investors buying Class B EUR Distributor Shares buy a percentage of net income, and the corresponding portion of the Offering Price (the equalisation payment) will be notionally credited by the Company to an equalisation account for the Sub-Fund.

The equalisation account will be maintained in order to ensure that equal amounts are distributed in respect of each Class B EUR Distributor Share notwithstanding different dates of issue.

When an equalisation payment has been effected, any subsequent dividends in relation to the relevant Class B EUR Distributor Shares, shall include an amount corresponding to the aforesaid equalisation payments and paid out of the equalisation account. However, the said amount shall not be included as part of the dividend in the event that the Directors exercise their discretion (as described hereunder) not to consider equalisation when determining distributions.

The Redemption Price of the Class B EUR Distributor Shares will also include an equalisation payment in respect of the net income of the Sub-Fund since the start of the relevant Interim Period up to the date of redemption, and upon the redemption of the Class B EUR Distributor Shares based on that Redemption Price, a sum equal to the Redemption Price of a Class B EUR Distributor Share which reflects net income (if any) accrued up to its date of redemption will be deemed to be an equalisation charge and debited to the equalisation account.

In the absence of significant fluctuations between the redemption and issue of Class B EUR Distributor Shares, the Directors may choose not to consider equalisation when determining distributions to Shareholders or to pay to such Shareholders any excess of equalisation credits over debits. Any fluctuations between redemption and issue of shares that could have an effect of one per cent (1%) or more on the NAV per Share shall be considered significant.

Sub-Fund Expenses

The fees and expenses incurred in connection with the establishment of the Sub-Fund, the application for licensing of the Sub-Fund, the preparation and publication of the Offering Supplement and all legal costs and out of pocket expenses in relation thereto shall be borne by the Company and attributed to the Sub-Fund.
